This book will be worth getting. Better than never, though I am quite late in starting to read this one. It has been written in an extremely basic way which is only right after I finished reading this book through which it actually altered me, altered the way I believe.

Policy Press, United Kingdom, 2018. Paperback. Condition: New. Language: English . Brand New Book. In 2014 an investigation into an alleged plot to `Islamify several state schools in Birmingham began. Known as the `Trojan Horse affair, this caused a previously highly successful school to be vilified. Holmwood, an expert witness in the professional misconduct cases brought against the teachers, and O Toole, who researches the government s counter-extremism agenda, challenge the accepted narrative and draw on the potential parallel with the Hillsborough disaster to suggest a similar false narrative has taken hold of public debate. This important book highlights the major injustice inflicted on the teachers and shows how this affair was used to criticise multiculturalism, and justify the expansion of a broad and intrusive counter extremism agenda.
