Without warning, all communication with Earth is mysteriously lost. Mac's egotistical science chief discovers that a massive solar flare has impacted Earth, causing catastrophic damage and most likely political and social upheaval. Unsure if it is safe to return home, Mac decides to wait for the arrival of the Mars 3 spacecraft and the relief crew already en route from Earth. After several weeks with no communication, Mars 3 lands nearby, showing no signs of life. Expecting a grisly scene, Mac enters the lifeless lander, but he is stunned and horrified by what he discovers. Are Mac and his crew the sole survivors of a galactic solar catastrophe or something more sinister? Now it is up to him to discover the truth in the midst of this Red Storm.
