Northside Books. Paperback. Condition: New. 366 pages. Dimensions: 8.0in. x 5.2in. x 0.9in. Emerson Wheeler has everything she ever wanted: two beautiful daughters, a reliable husband, and a modest gardening business in a small town. But after her estranged father commits suicide, she has to face facts. She's been lying to people her whole life, and her unhappy marriage is keeping her from knowing her true self. Finn Lowell is a married father of two and a Navy police officer. After a childhood of abuse he has a hard time trusting people. Soon he must decide whether to continue in active duty and risk being deployed overseas. If he quits, he can spend the summer at his lake house alone with his sons. When Emerson volunteers to help Sybil Hay, a reclusive physicist, with her rundown estate in Delphi, Georgia, she's in for a surprise: Finn works there in his free time. Emerson has only met him once through her husband, but it convinced her that spending time together could be dangerous because of their attraction. Equally dangerous are Sybil's unconventional beliefs about love, which date back to a mysterious summer she spent with Albert Einstein. After Sybil falls ill, Finn makes Emerson an outrageous offer that will test everything they stand for. And through it they will discover their deepest fears and dreams, while uncovering secrets they never knew. In *THE UNIFIED THEORY OF LOVE AND EVERYTHING*, Travis Neighbor Ward takes readers on a journey into the heart of marriage, friendship, and what it means to love someone.
