LAP Lambert Academic Publishing Jul 2012, 2012. Taschenbuch. Book Condition: Neu. 221x151x10 mm. Neuware - The NetFPGA platform enables students and researchers to build high-performance networking systems using Field Programmable Gate Array (FPGA) hardware. A new version of the NetFPGA platform has been developed and is available for use by the academic community. The NetFPGA platform has modular interfaces that enable development of complex hardware designs by integration of simple building blocks. FPGA logic is used to implement the core data processing functions while software running on an attached host computer or embedded cores within the device implement control functions. Reference designs and component libraries have been developed for the CS344 course at Stanford University and an open-source Verilog reference design is available for download from the project website. 92 pp. Englisch.
