

Complete Anatomy Coloring Book

By Dr. C. R. Constant, Dr. Cecilia Brasset, Michelle Spear

IMM Lifestyle Books, United States, 2016. Paperback. Book Condition: New. 2nd ed.. 276 x 210 mm. Language: English . Brand New Book. Complete Anatomy Coloring Book is a comprehensive collection of impressive outline drawings showing the body's muscles, skeleton, organs and anatomical systems (nervous, endocrine, cardiovascular, lymph, respiratory, digestive, urinary and reproductive). It contains over 150 diagrams that can be coloured in using felt-tips, crayons, marker pens, coloured pencils or gel-pens. The process of colouring in the different body parts is a fantastic aid to learning, making the book a thoroughly practical, interactive aid for students studying anatomy. Extended captions to the illustrations explain exactly what is being shown and provide clues to help you label the diagrams. Students can then key in the labels to the illustrations as an additional learning device. By engaging with the illustrations in this way, students will gain a deeper understanding of the parts of the body and its processes. The exciting combination of colouring activities and labelling exercises makes Complete Anatomy Coloring Book an invaluable tool for all those wishing to learn more about anatomy in a way that is both relaxing and fun.
