### **Reviews**

*The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

At p. 1041 this case is quoted as proof that angina pectoris is not necessarily fatal. Case 47f is headed Recurrent Angina, c. Here again, there is the history of paroxysms of dyspnoea, accompanied by a feeling of great oppression in the region of the heart; but pain is conspicuous by its absence. Case 101J Recurrent Angina Pectoris, c. This patient was seen in a state of the most extreme respiratory distress; the difficulty of breathing in the recumbent position was so great that he had not been able to lie down for four weeks. The only mention of pain in this case is in connection with an attack of rheumatism, from which he had previously suffered. This was accompanied with severe lancinating pain in the lower part of the right side. The italics are mine. Case 127 is a good example of angina pectoris occurring in a man of forty-two, with a double aortic murmur. Case 128, a man of forty-five complained of palpitation accompanied by intermission of the cardiac impulse and of the radial pulse, which he latterly began to experience on going upstairs, or being otherwise hurried in his movements; he had also felt, on these occasions, a dull, tensive pain behind the sternum. This may pass as an instance of angina pectoris, but it hardly corresponds to the author s description of angina, viz. the patient suddenly feels an excruciating pain of a constrictive character shooting across...
