By J M F Wright

Forgotten Books, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Hints and Answers, Being a Key to a Collection of Cambridge Mathematical Examination Papers, as Proposed at the Several Colleges, Vol. 1: Containing Euclid, Arithmetic, and Algebra This work comprises not only Hints for the solution of the more difficult parts of questions, but Answers for all, over and above the complete development of many of the most intricate. The full proof, or investigation, is bestowed upon nearly all the last five Algebraic Problems and Equations in each of those papers given at St. John's College which invariably consists of seven questions, - these papers having been found far more difficult of treatment than any proposed at other Colleges. Interesting questions also have been somewhat fully solved and exemplified; and the shortest practical methods have constantly been suggested on every available occasion. Notwithstanding so much has been done for the student, the work does not greatly exceed double the bulk of the questions themselves.
