

Winners Want Others to Win: The Summing Up (Paperback)

By Jim Green

Createspace, United States, 2014. Paperback. Condition: New. Large Print. Language: English . Brand New Book ***** Print on Demand *****. 3 is the zero-sum threshold above which unemployment starts undermining the Market--and the loss in income to the Market is compounded exponentially with each percentage point of increase in unemployment, above 3 . Further, unemployment is a social problem--with oft dire social consequences--we, as the larger society have a responsibility to address--but we run from this responsibility as if it were AIDS.So, why do we stay on this no win path? The jobless lose, and the market loses--and the purpose, here, is to drill down on that question. For starters, and in taking stock, a large part of the problem is that we keep trying to make anachronistic beliefs/rules apply, by our experts and laymen, alike--such as the most pernicious belief today: The market can provide anybody wanting a job, with a job. .
