Excerpt: . . . we identified focus on the concerns of small businesses or of all businesses in general and may address some issues that also are relevant to small businesses engaged in manufacturing. In commenting on a draft of this report, 18 of the 19 agencies provided technical comments that we have incorporated, as appropriate. Manufacturing generally involves the mechanical, physical, or chemical Background transformation of materials, substances, or components into new products, including the production of food, automobiles, and clothing, among many other things. The materials that manufacturers transform into new products include raw materials from agricultural, forestry, fishing, mining, or quarrying businesses as well as component items produced by other manufacturers. Manufacturing also includes the assembly of components into manufactured products. Businesses engaged in manufacturing often are referred to as plants, factories, or mills, and most use power-driven machines and materials-handling equipment. However, products that are made by hand, or in a workers home, and businesses that both make and sell products at the same location, such as bakeries, also qualify as manufacturers. In...
