

Fast Data Processing with Spark 2 (Paperback)

By Krishna Sankar

Packt Publishing Limited, United Kingdom, 2016. Paperback. Condition: New. 3rd Revised edition. Language: English . Brand New Book ***** Print on Demand *****. Learn how to use Spark to process big data at speed and scale for sharper analytics. Put the principles into practice for faster, slicker big data projects. About This Book * A quick way to get started with Spark - and reap the rewards * From analytics to engineering your big data architecture, we've got it covered * Bring your Scala and Java knowledge - and put it to work on new and exciting problems Who This Book Is For This book is for developers with little to no knowledge of Spark, but with a background in Scala/Java programming. It's recommended that you have experience in dealing and working with big data and a strong interest in data science. What You Will Learn * Install and set up Spark in your cluster * Prototype distributed applications with Spark's interactive shell * Perform data wrangling using the new DataFrame APIs * Get to know the different ways to interact with Spark's distributed representation of data (RDDs) * Query Spark with a SQL-like query syntax...

Reviews

These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Everett Stanton**

Very good electronic book and valuable one. It is actually written in basic words instead of difficult to understand. I discovered this ebook from my i and dad encouraged this publication to discover.
